PROFESSIONAL SUMMARY

Dynamic Flutter Engineer with over 1 year of hands on experience delivering high performance, secure, and user centric mobile solutions for enterprise clients. Seeking a challenging role where I can leverage my expertise in state management, CI CD, and cross functional collaboration to drive product excellence and accelerate time to market

WORK EXPERIENCE

Mobile Engineer | *Value Digital Services* | Tunis, Tunisia | Feb 2023 – Present

- Led end-to-end development of a Flutter-based insurance app serving over 10,000 users
- Integrated RESTful APIs and Firebase services with SSL pinning, reducing attack surface and blocking emulator/rooted device usage
- Migrated state management from Provider to Bloc, improving maintainability and cutting UI bugs
- Designed CI/CD pipelines with Jenkins and AppCenter for automated builds and releases to app stores
- Conducted User Acceptance and penetration testing, resolving defects and enhancing security posture

Mobile Engineer | *Freelance* | Dubai, UAE | Nov 2024 – Present

- **Architected full-stack Flutter solution for a fitness studio covering booking, scheduling, member management, and web admin panel**
- **Implemented real-time Firebase sync, Stripe payments, and Cloud Functions for scalable backend workflows**
- **Delivered white-label architecture using environment-specific env files for rapid rebranding**
- **Optimized asset handling with lazy loading, caching, and image compression, reducing load time by 30 %**
- **Managed release lifecycle via GitLab CI for seamless iOS and Android deployment**

Lead Mobile Engineer | *Value Digital Services* | Tunis, Tunisia | Feb 2023 – Present

- **Directed cross-functional squad of developers, designers, and DevOps engineers to deliver app on schedule**
- **Established coding standards and review processes, decreasing review cycles and improving code quality**
- **Mentored junior developers on Bloc architecture and secure mobile development practices**

- Coordinated bi-weekly sprint planning and retrospectives, fostering Agile mindset
- Acted as primary liaison with business analysts and stakeholders, translating requirements into technical specifications

EDUCATION

Masters in Computer Science | *ESPRIT* | Tunis, Tunisia | 2018–2023

- Coursework: Mobile Engineering
- Coursework: Networking
- Coursework: DevOps
- Coursework: Data Structures

PROJECTS

Dima Maak Insurance App | Feb 2023 – Present

- **Developed a high-traffic insurance application with Flutter, supporting over 10,000 active users**
- **Implemented SSL pinning and device-integrity checks, reducing security vulnerabilities by 30 %**
- **Optimized performance through lazy loading, caching, and image compression, cutting load times by 30 %**
- **Integrated Firebase Authentication, Cloud Messaging, and real-time database for seamless user experience**
- **Managed automated builds and deployments via Jenkins and AppCenter, achieving zero-downtime releases**

Fitness Studio Booking Management System | Nov 2024 – Present

- **Designed and delivered a complete Flutter mobile app and web admin dashboard for studio operations**
- **Integrated Stripe for secure payments and Firebase Cloud Functions for backend automation, enhancing scalability**
- **Implemented a white-label solution allowing rapid rebranding for multiple clients through configurable environment files**

- Provided real-time analytics and reporting for gym owners via the web admin panel
- Ensured end-to-end CI/CD with GitLab CI, enabling rapid iteration and reliable releases on both iOS and Android

SKILLS COMPETENCIES

Technical Skills: Proficient in Dart and Flutter for cross-platform mobile development, State management using Bloc, Provider, and Riverpod, Backend integration with RESTful APIs, Firebase services, and Stripe payments, CI/CD pipeline creation with Jenkins, Fastlane, GitLab CI, and AppCenter, Testing expertise including unit, integration, UI/UX, and penetration testing, Performance optimization through lazy loading, caching, image compression, SSL pinning, and device integrity checks

Core Competencies: Strong communication and collaboration across cross-functional teams, Leadership and mentorship of junior developers, Agile sprint planning and retrospective facilitation, Problem-solving and analytical thinking under tight deadlines, Adaptability and continuous learning in fast-changing tech environments

Languages: English – Proficient, French – Proficient, Arabic – Native
